

Electronic Blood Pressure Monitor Upper-Arm

Automatic upper-arm blood pressure monitor designed for and clinical use. Featuring a fully automatic oscillometric measurement, it provides one-touch operation with a large backlit LCD display, voice broadcast, and memory of up to 90 measurements. It alerts users to irregular heartbeats, improper cuff placement, and patient movement.

The adjustable cuff fits arm circumferences from approx. 22–45cm. Powered by 4 AA batteries or a 6V adapter and USB C-Type Cable.
